Is PETA an animal welfare or animal rights organization?

[from PETA URL]

Our Mission Statement

People for the Ethical Treatment of Animals (PETA) is the largest animal _____ organization in the world, with more than 6.5 million members and supporters.

PETA focuses its attention on the four areas in which the largest numbers of animals suffer the most intensely for the longest periods of time: in laboratories, in the food industry in the clothing trade, and in the entertainment industry. We also work on a variety of other issues, including the cruel killing of rodents, birds, and other animals who are often considered "pests" as well as cruelty to domesticated animals.

PETA works through public education, cruelty investigations, research, animal rescue, legislation, special events, celebrity involvement, and protest campaigns.
