

ADVS Assessment [2019-2020]

Emphasis: Animal and Dairy Science

Skills & Career Competencies [SCC]: Learning Outcome [LO] #2

Semester/Course: Spring 2020: ADSV 2200: Animal Anatomy and Physiology

Artifact: Final Research Paper

The Final Research Paper is an assessment of SCC LO #2. The assessment measures the student's ability to communicate effectively in oral and written forms by having students write a 2 to 3-page literature review on one of the course's main topics.

2. Communicate effectively in oral and written forms.

Final Research Paper

Description of Assignment:

Write a 2-3 page literature review that references at least five sources, three of which must be from peer-reviewed sources. Include a statement of your objectives at the end of the first paragraph that mentions the main topics you will cover in the rest of the paper. Make sure to organize your main ideas in a logical order and base your conclusions on evidence from peer-reviewed sources. In the introduction to the paper, identify your paper topic, state which system your topic relates to, and describe how that system relates to other systems in the body.

Include a reference sheet listing the articles you cite at the end of the paper (this does not count toward your page limit). Adhere to [APA formatting](#).

Grading of Assignment:

The following rubric will be used to assess your literature review. To calculate your grade, take your total points earned, divide by 40 (the total points possible), and multiply by 100. See the syllabus for the corresponding letter grade.
