

ADVS Assessment [2019-2020]

Emphasis: Animal & Dairy Science

Disciplinary Knowledge [DK]: Learning Outcome [LO] #5

Semester/Course: Fall 2019: ADVS 1100: Introduction to Animal Science

Artifact: Mating Capacity Discussion

The Mating Capacity Discussion is an assessment of DKLO #5. The assessment measures the student's ability to integrate knowledge from the various disciplines to effectively conduct livestock operations by researching and recommending male to female ratios on a hypothetical cattle and sheep operation via a Canvas Discussion with their peers.

5. Integrate knowledge form the various disciplines to effectively conduct livestock operations.
